

Exercise 1 Consider the relation with points of the form (x, y) , where x represents a distance given in miles, and y represents the same distance in feet. For example, $(1, 5280)$ is in the relation.

Fill in the following table with the correct values of the relation:

<i>Distance in Miles</i>	<i>Distance in Feet</i>
0	0
1	5280
3	15840
6	31680
10	52800
