Exercise 1 Evaluate $f(\frac{2}{b+1})$ for the following function. $f(x) = \frac{3}{x} + 1$ $f(\frac{2}{b+1}) = \frac{3b+5}{2}$

$$f(x) = \frac{3}{x} + 1$$
$$f(\frac{2}{b+1}) = \frac{3b+5}{2}$$
